

Senior Index Quant Developer– Permanent Contract

Compass is a Swiss company specializing in the creation of financial indices and quantitative investment strategies.

Since 2017, Compass team has been developing innovative indices for its clients and supporting them in the various stages of the development of their index product range.

Thanks to our experience, we are one of the most innovative and responsive financial index providers and calculators on the market.

For our new Hungarian subsidiary based in Budapest we are looking for a senior index quant developer who will be in charge of the Hungarian index quant team.

Your Role:

You will be responsible for the Index Calculation platform and you will manage the development team.

Your responsibilities include:

- Maintain and improve the Python index platform environment
- Manage the team of quant developers
- Understand the new incoming strategies and implement their calculation in Python language in the existing architecture
- Manage the daily production process related to the computation and publication (on Bloomberg, Reuters, ...) of client and internal strategies
- Participate in R & D on new indices / strategies developed by Compass
- Provide support to customers

What we are looking for:

- With a Master degree or equivalent, you benefit from solid knowledge in computer development and mathematics
- You have a minimum 4 years' experience in the implementation of systematic strategies
- Strong Python development experience is essential (Flask framework is a plus)
- You master the Windows & Linux environments
- You master the fundamentals of non-SQL databases like MongoDB
- Knowledge of C #, R, HTML & CSS is a plus
- Knowledge of the Bloomberg and Reuters APIs is a plus as well as basic mechanisms of financial products
- You are fluent written and spoken English, French is a plus
- A first experience as a team manager is a plus
- You want to join a swiss innovative startup in the financial field

Compass is a young company that offers a significant evolution perspective to his employees.

Compensation: competitive fixed salary + bonus
